## SAFHE & CEASA 2005

The SAFHE and CEASA biennial conference and exhibition has become widely recognized in Southern Africa as the focal point for debate on issues impacting on health care service delivery. It attracts a cross section of influential people involved in all facets of health care, with a common desire to improve health care services, reduce cost and provide facilities where needed.

As a sequel to the last highly successful event at Club Mykonos, West Coast in March 2003, where both the conference and exhibition were totally sold out; it is the industry event that should not be missed.

In addition to the presentations by eminent speakers, there will be a trade exhibition of products and services relevant to the healthcare industry.

This conference is a must for those involved in all facets of health care, and is important for the provision of affordable healthcare in Southern Africa.

### WHO SHOULD ATTEND?

- Health service and facilities: Planners, Administrators and Managers
- Medical equipment specialists and suppliers
- Architects, Engineers, Quantity surveyors and Maintenance personnel
- Clinical Engineering Practitioners
